

HILCO® Filter Elements for Process Filtration

HILCO®

A Division of THE HILLIARD CORPORATION

Hilco® offers a wide range of filtration products for the process industry. Hilco® filter cartridges are quality constructed and designed for maximum dirt holding.

Hilco® features products for both new and existing applications and offers replacement elements for most popular sizes.

Pleated Bag Cartridges for Process Applications

Available in both disposable and washable designs, metal or nylon end cap configuration. You are sure to find a solid performing filter with Hilco®.

High Capacity Media = Superior Dirt Holding

Hilco® offers an alternative to string wound elements. Improve the ISO cleanliness level in your system by taking advantage of the Hilco® 330 Series elements. Hilco® offers both the standard 330 & 330 extended tube models as direct replacements.
